## **BELLA BENE PRODUCTIONS : COMPANY PROFILE**

Bella Bene is an established, LA-based production company specializing in video and image production for photographers, brands, content creators, artists and filmmakers of all kinds.

Founded and helmed by Annabel Schofield, our talented production team is dedicated to bringing your shoot in on time and on budget in a professional, stress-free environment. We value the safety of our clients, cast and crew and follow CDC protocols at all times.

Bella Bene has produced independent features, documentaries and short films at all budget levels, and currently has three independent features in development. We are honored to be working with talented writers and directors to make films that are heart-warming, entertaining and tell an interesting story without relying on extensive CGI.

Bella Bene Productions offers full production services from inception to post-production; including location scouting and management, casting, crew and equipment hire, insurance and film budgeting and scheduling. We also work with special collaborators in the event and art arenas.

## **ANNABEL SCHOFIELD : EXECUTIVE PRODUCER AND FOUNDER**

Bella Bene's Executive Producer, Annabel Schofield has production running through her veins. As the daughter of renowned film producer, John D. Schofield (*Ali*, *As Good As It Gets*, *Jerry Maguire*) Annabel grew up on film sets. She started her career as an international fashion model and starred in numerous campaigns including Gianni Versace, Yves St. Laurent, Revlon and Bugle Boy Jeans. From fashion she transitioned to acting and subsequently starred in many independent films as well as the iconic TV soap, *Dallas*.

After several successful years as an actress, Annabel decided to move behind the camera, concentrating on writing, directing and production. She has worked extensively in international film for Academy Award-winning directors such as James L. Brooks and Terry Gilliam.

During the last 10 years, Annabel has established herself as one of the best stills, content and video producers in Los Angeles with her company, Bella Bene Productions.
